Studies selected in the SLR

Study ID	Title	Year
S01	Using Enterprise Architecture Model Analysis and Description Logics for Maturity Assessment	2018
S02	Looking for a five-legged sheep: identifying enterprise architects' skills and competencies	2018
S03	Extending IT-based Competitive Strategy Framework using Architecture Vision and Business Architecture of TOGAF Architecture Development Method (ADM)	2019
S04	Ordering stakeholder viewpoint concerns for holistic enterprise architecture: the W6H framework	2018
S05	Can metamodels link development to design intent?	2016
S06	Analysis of Enterprise Architecture Frameworks in the Context of E-participation	2011
S07	Extending Enterprise Architecture Modeling Languages: application to telecommunications service creation	2012
S08	A method to define an Enterprise Architecture using the Zachman Framework	2004
S09	How enterprise architectures can support integration	2005
S10	Enterprise Architecture for e-Government	2017
S11	Modeling digital preservation capabilities in enterprise architecture	2011
S12	Ontology-based enterprise architecture model analysis	2014
S13	Enterprise architecture and e-government projects in Punjab, Pakistan	2014
