Recycle your books

Books are an important part of our lives. Yet, many of us still struggle with old and unwanted books that takes up space in our shelves. When you decide it's time to part with them, we want you to know that they can go to a nice home where they can continue to enrich and improve other students education. We gratefully accept all kinds of books.

By recycling unused books, you will make an even greater impact by conserving resources and finances that will generate less paper waste, ultimately reducing your carbon foot print. Book by book, we encourage you to embark on this greater and meaningful cause in making this planet a better place to live for the generations to come.

OUR SERVICES

Ask a librarian

Have a question? Ask us now! Librarians are available to answer your questions and help with your research. We are happy to help you, but asking for your patience. As many of us are working remotely, this may impact our access to some EECS library materials and our ability to fully respond to your question at this time.

[Use our contact form to get in touch with a librarian](#)

Study booth

There are several reading and study booths available for quiet sessions, if you prefer to study in a non-disturbing environment.

Book recycle

Books are an important part of our lives. Yet, many of us still struggle with old and unwanted books that takes up space in our shelves. When you decide it's time to part with them, we want you to know that they can go to a nice home where they can continue to enrich and improve other students education. We gratefully accept all kinds of books.

[Start recycling your books >](#)

Book club

Life is short, and books take a long time to read, so let's make our reading count! Various book clubs are available for those who enjoy reading all kinds of genres.

All students are welcome whether you are a veteran or are reading a great work for your first time. You are welcome to visit us if you want to know more about current book clubs.

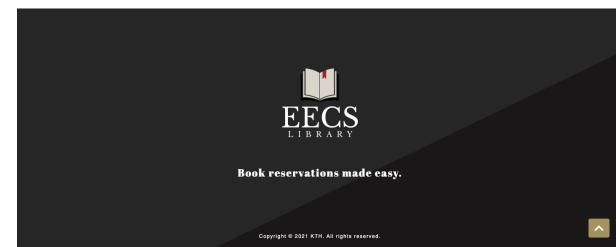

Figure 6.24: Services Page

OUR STORY

EECS Library was founded in 2021 - a digital book reservation system serving the library in one of KTH's campuses in Kista, Stockholm.

Students need for course literature, books, and knowledge in writing is increasing day by day, and our effort is to address this need accordingly. Whether you want to see if a book is available, reserve a book, recycle a book, or attend a workshop - this site will provide you all the necessary means to satisfy your needs.

OUR SERVICES

EECS Library offers different services for our students:

Ask a librarian

Study booth

Book recycle

Book club
